

**REMARKS/ARGUMENTS**

Favourable reconsideration of this application is respectfully requested in view of the above amendments and the following remarks.

The Examiner has rejected claim 1 under U.S.C. § 112, second paragraph. Specifically the Examiner has objected to claim 1, lines 7 – 9 as being indefinite. In view of the above amendments as described herebelow, it is respectfully submitted that the claims as amended now meet the requirements of 35 U.S.C. § 112.

Claim 1 has been amended to remove the alternative venting means that were included and the alternative air venting means have been added as new claims 8 and 9.

Applicant submits that the amendments to the application are to more clearly and succinctly recite and claim the present invention. It is respectfully submitted that no new matter has been added by these amendments and all the amendments are supported by the original specification as a whole.

It is respectfully submitted that the application is now in condition for allowance, which is requested.
